## AI-N'T A GIVEN: MASTERING KEY AI LITERACY SKILLS AND PEDAGOGICAL TECHNIQUES

### Abstract

Join this university talk to understand how faculty and students can gain AI literacy. The session will also explore the effective pedagogical strategies as well as the varied applications and educational value of AI chatbots. Educators will learn how to seamlessly incorporate AI technologies into their teaching approaches, while college students will explore how AI chatbots can be customized to enhance their learning journey.

### Learning Outcomes

- Identify various AI tools and understand their features and limitations within an educational context.
- Critically assess the appropriateness and effectiveness of AI technologies for different types of course content.
- Utilize chatbots as educational tools, enhancing engagement and facilitating personalized learning.
- Integrate AI tools into course planning, ensuring that these technologies support educational objectives and contribute to learning outcomes.
- Gain insights into the ethical considerations of using AI, including the impact on student autonomy.

### Dr. Krisztina Domjan

Professorial Lecturer, Office of Global and Immersive Studies Faculty, American University

Krisztina is a progressive and compassionate educator with experience in a range of educational settings: higher, adult, and secondary education of civilian and military learners. She has taught Intercultural Studies, Research Writing, Composition and Discussion courses in Hungary, in England, in Germany (military base) and in the USA. She is an advocate of lifelong learning, professional development, innovative teaching practices, continuous fieldwork and qualitative research in education for the enhancement of the learning experience, inclusion and student retention. She shares innovative and stimulating ideas and professional development resources with colleagues and in professional learning circles. She has experience teaching in-person and online courses. Dr. Domjan is currently serving as the Chair of the OGIS Faculty Council.
